Section 1: Eligibility requirements for the Award of a Higher School Certificate

- 1.1. To be eligible for the award of the Higher School Certificate (HSC) students must:
 - 1.1.1. have gained the Record of School Achievement or such other qualifications as the NSW Education Standards Authority (NESA) considers satisfactory;
 - 1.1.2. have attended a government school, an accredited non-government school, a school outside NSW recognised by NESA or a college of TAFE;
 - 1.1.3. have completed **HSC: All My Own Work** (or its equivalent)
 - 1.1.4. have demonstrated a minimum standard of literacy and numeracy;
 - 1.1.5. have satisfactorily completed courses that comprise the pattern of study required by the NESA for the Award of the Higher School Certificate;
 - 1.1.6. sit for and make a serious attempt at the required HSC examination(s).

1.2. **Pattern Of Study**

To qualify for the HSC students must satisfactorily complete a Year 11 pattern of study comprising at least 12 units and Year 12 pattern of study comprising at least 10 units. Both patterns must include:

- 1.2.1. at least 6 units from Board Developed courses;
- 1.2.2. at least two units of a Board Developed Course English;
- 1.2.3. at least three courses of two units value or greater (either Board Developed or Board Endorsed Courses);
- 1.2.4. at least four subjects.

To satisfy the pattern of study requirements for the HSC, a student may count up to six (6) units of Science in Year 11 and seven (7) units of Science in Year 12.

1.3. **Satisfactory Completion Of A Course / Course Completion Criteria**

Satisfactory completion of the Preliminary course or its equivalent is a prerequisite for entry into an HSC course. (Exception: HSC Mathematics Extension 1).

Students must satisfactorily complete the Preliminary course before commencing the corresponding HSC Course. The following course completion criteria refers to both Preliminary and HSC courses:

A student will be considered to have satisfactorily completed a course if in the Principal's view, there is sufficient evidence that the student has:

- 1.3.1. **followed** the course developed or endorsed by the NESA; and
- 1.3.2. **applied** themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school; and
- 1.3.3. **achieved** some or all of the course outcomes.

1.4. **Attendance**

Principals may determine an appropriate attendance pattern which will enable students to achieve the outcomes of each course studied. That is, Principals may determine that as a result of absences, the course(s) completion criteria has not been met.

Students will be warned of the consequences of cumulative absences. Students whose attendance is called into question will be required to prove to the Principal's satisfaction, following a review of their performance, that they are meeting the course completion criteria.

1.5. **Change Of Subjects / Courses**

1.5.1. **Year 11**

Year 11 changes of subjects must be completed by Week 4 of Term 1. Under exceptional circumstances, changes of courses recommended by the Principal, Head Teachers of Science and Mathematics may take place for a short period of time after the deadline. This is at the Principal's discretion and must not be assumed as a right by students.

1.5.2. **Year 12**

Students may drop a 1 unit or 2 unit subject at the beginning of Term 4 if they pick up an extension course which may be offered in: English, Mathematics, History, Music, some languages and VET courses.

All other students cannot drop a course until after the final Year 11 reports have been received and "Pattern of Study – Change Form" (obtained from Deputy Principal) has been completed and returned.

1.5.3. **Pathways**

Students may change from a full-time pattern of study to a part-time (Pathways) pattern with the Principal's approval. Other course changes will not be permitted.

Section 2: Assessment in Stage 6

2.1. **Starting Time**

2.1.1. Year 11 – Tasks may commence at any stage in Term 1 of the Preliminary year.

2.1.2. Year 12 - Tasks may commence in Term 4 of the Preliminary year.

2.2. **The Assessment "Calendar" as published in Assessment Booklets**

The Assessment "Calendar" indicates the date which the tasks in various subjects take place. It is aimed for students managing their time and providing warning well in advance for students, that tasks will fall due. This is developed and published at the commencement of the course.

Students should note that the assessment calendar is a guideline. It can be subject to alteration for a

specific reasons e.g. teacher absence, widespread student illness etc. Under such circumstances a later date would be established as approved by the Principal, and students notified in writing of the variation to timing and or content. Students will be required to sign to acknowledge the change of assessment details.

2.3. **Protected Learning Time**

In order to help students achieve their personal best, the following conditions will be in place during the **week (1) week prior** to formal examination periods:

2.3.1. No assessment task will be held or fall due.

2.3.2. No Variation to Routine will be permitted to be undertaken by Stage 6 students unless prior approval is sought from the Principal, who will assess the relevance of the variation to the senior students.

2.4. **Time Management**

The solution to time management at the HSC is **not** to concentrate on any one area of senior courses at the expense of another. Students should organise and plan their study time in advance so that both assessment and non-assessment tasks receive adequate attention. Time off school should not be taken for anything but legitimate reasons, such as sickness.

Students are advised that their attendance will be closely monitored. Particular attention will be given to days just prior to Assessment Task submission in all subject areas. This should allow any undesirable patterns of non-attendance to be detected, and parents informed of this.

Students studying courses that require the submission of a **major project / performance** need to be aware that the Higher School Certificate Examination dates for these tasks are set by the NESA. The school has no control over these dates. This may cause crowding of tasks near or during the Trial Higher School Certificate Examinations.

2.5. **Assessment Notification, Submission and Feedback**

2.5.1. Students will receive an Assessment Notification at least **two weeks** prior to the due date for a task. The notification will detail:

2.5.1.1. when the task will be assessed (date of the week);

2.5.1.2. what will be assessed;

2.5.1.3. how it will be assessed;

2.5.1.4. the relative value of the task;

2.5.1.5. course outcomes assessed.

2.5.2. Students will be required to sign to acknowledge the following:

2.5.2.1. Assessment Notification – to be signed on the day the student receives the Assessment

Notification

2.5.2.2. Assessment Submission – to be signed on the day the student submits their task

2.5.2.3. Assessment Returned – to be signed when the student receives their submitted task back

2.6. **Value**

The composition of the assessment tasks varies for each subject and is detailed in the subject information which will be distributed by your course / subject teachers. These are formulated according to the NESA guidelines.

2.7. **Assessment Tasks**

Assessment Tasks, which include Formal Examinations, are an ongoing process which takes place in Year 12. Component marks for various tasks accumulate to provide a final mark (per subject).

2.7.1. **Composition of the Mark**

2.7.1.1. While assessment tasks provide a substantial element, there are many other aspects taken into account which cannot be readily measured in either internal examinations or a single external examination. These vary from subject to subject and include:

2.7.1.1.1. Aural (listening) skills;

2.7.1.1.2. Communication skills;

2.7.1.1.3. Understanding of concepts;

2.7.1.1.4. Research skills;

2.7.1.1.5. Practical skills etc.

2.7.2. **Marks awarded for assessment tasks**

These are provided and allow students to determine their relative ranking for each task.

2.8. **Feedback**

2.8.1. Teacher feedback about student learning is essential for students and integral to teaching, learning and assessment. Stage 6 feedback can clarify for students:

2.8.1.1. how their knowledge, understanding and skills are developing in relation to the syllabus outcomes and content being addressed; and

2.8.1.2. how to improve their learning.

2.8.2. While it is not a requirement for teachers to provide informal feedback to students during the development of student work for a formal assessment task, it may be a valuable way for teachers to monitor student progress and the authorship of student work. Marks or grades are not to be attributed to informal feedback. Faculties and Head Teachers will make decisions regarding the provision of informal feedback ensuring equal opportunity for all students to receive feedback from teachers.

2.8.3. Feedback enables students to recognise strengths as well as areas for improvement, and to

identify and plan with their teacher the next steps in their learning. Students should be provided with feedback that:

- 2.8.2.1. is timely, specific and related to the learning and assessment intention;
- 2.8.2.2. is constructive and provides meaningful information to students about their learning in a variety of forms;
- 2.8.2.3. focuses on the outcomes of the task and corrects misunderstandings;
- 2.8.2.4. identifies and reinforces students' strengths;
- 2.8.2.5. provides information about how they can improve;
- 2.8.2.6. facilitates the development of and provides opportunities for self-assessment and reflection during the learning process; and
- 2.8.2.7. informs future teaching and learning opportunities.

2.8.4. Feedback can occur at any point in the teaching, learning and assessment cycle. It may:

- 2.8.4.1. include regular teacher-student dialogue to guide student learning
 - 2.8.4.2. focus on particular knowledge, understanding and skills related to outcomes and content, and/or processes applied to the task.
- 2.8.5. Students may benefit from opportunities to self-assess, self-monitor and make judgements about their work in relation to standards and should be provided with regular opportunities to reflect on their learning.

The various forms, policies and descriptions which follow are common to all faculties and the subject taught by them in this school.

2.9. **Ranking**

Ranking is a student's standing or rating relative to other students undertaking the same course.

Ranking for individual assessment tasks is given to students, and a cumulative ranking is provided on the following reports:

- 2.9.1. Half Year – for both Year 11 and Year 12
- 2.9.2. Final End of Course – for both Year 11 and Year 12

Reports also give students feedback on their level of achievement of their course outcomes.

2.10. **Request for Extension of Time**

These applications are to be submitted to the class teacher on a Misadventure/Illness appeal form

prior to the day of the assessment. They will be judged by the Head Teacher in conjunction with the class teacher. Students must not assume that application for extension of time will be automatically accepted and therefore should submit such applications as early as possible. (NB Failure of computer hardware or software will not normally be considered as valid reason for extension of time to be granted).

2.11. Factors Influencing the Quality of Tasks Submitted

In the marking of Assessment Tasks schools are not permitted to compensate for factors such as extended illness, misadventure or domestic problems etc. which may have affected a student's performance, unless a student has applied for consideration of illness or misadventure. Teachers will award a mark or grade for what is actually submitted. We do not make allowances for conditions or potential in the marking scheme.

2.12. Student Sick on Day of Assessment Task

If a student is sick on the day of an Assessment Task they should:

- 2.12.1. notify school via phone
- 2.12.2. obtain a medical certificate.
- 2.12.3. provide a reason if no medical certificate is provided. It is at the Principal's discretion whether this reason is acceptable and if the appeal will be considered.
- 2.12.4. Complete an Illness/Misadventure Appeal Form available from the Deputy Principal or Year Adviser. The Appeal form must be presented to the Head Teacher with supporting material **within 48 hours** of return to school.

2.13. Collusion / Plagiarism

Where it is evident that students have colluded to prepare a submitted task i.e. two or more students have together prepared and shared a submission for an assessment task, or the student has copied the material presented as the assessment task from another source, a reduced award will be given as determined by the Head Teacher and Principal.

The Head Teacher, with approval of the Principal, may recommend either of the following options:

- 2.13.1. a zero award for all students involved;
- 2.13.2. students re-submit the task with a mark penalty applied.

2.14. Special Provisions

Special provisions may be provided to assist students with assessment tasks and examinations if the student has a special need which would prevent him or her from:

- 2.14.1. reading and interpreting school-based assessments including tests.
- 2.14.2. communicating their responses

Special provisions are granted so that specific syllabus outcomes may be assessed accurately without students with special needs being disadvantaged.

Students who wish to apply for special provisions should see Head Teacher Wellbeing or the School Counsellor.

2.15. Students Transferring to Gilgandra High School

The previous school is to provide assessment marks for HSC Courses for students who transfer after 30th June in the year of the HSC examination. The marks will be developed from assessment information collected during the student's period at the school. For the purpose of moderation these students will be regarded by the NESA as being members of the previous school.

Where a student transfers to a school where a course being studied is not available, the course being studied may be continued through distance education, OTEN, an outside tutor, at another school or Institute of TAFE. If none of these options is available to the student, the Principal may permit the student to change subjects/courses/ units within the regulations outlined ***ACE 8068 Changes of HSC course***.

2.16. Invalid tasks/parts of tasks or non-discriminating tasks.

If the class teacher has a concern that an assessment task has not functioned as required, or there are problems in the task's administration, they are to notify their Head Teacher immediately. The Head Teacher, with approval of the Principal, will determine a suitable resolution in consultation with all involved. In extreme cases, an invalid task may need to be discarded completely, or a replacement task may be organised. Students will be notified of the determination and given two school days to appeal the decision in writing to the Principal, before the determination is implemented.

Section 3: Assessment in VET courses

3.1. All VET courses are competency-based courses. NESA and the Australian Qualifications Framework (AQF) require that a competency-based approach to assessment is used. Assessment must:

3.1.1. meet the requirements of the national training package or nationally accredited qualification/course on which the VET course is based; and

3.1.2. be conducted by a qualified assessor under the auspices of an RTO which may be a school, TAFE college or other VET provider.

3.2. **Recognition of Prior Learning (RPL)**

A student may apply for Recognition of Prior Learning (RPL). RPL allows students to achieve competencies as a result of formal and informal training regardless of how, when or where the learning occurred. Students must apply to class teacher using the Application for RPL.

3.3. **Unit Assessment**

Assessment may be conducted for individual units of competency or for groups of units of competency. All performance criteria needs to be met to demonstrate the achievement of an element of competency and all elements of competency must be achieved in order to demonstrate the achievement of a unit of competency. Skill assessment is assessed as Competent / Not Competent.

Teachers will usually organise a number of chances for students to demonstrate competency. Students may seek further opportunities to demonstrate those competencies, but these need to occur without disruption to the work of fellow students.

Should a student require additional attempts to achieve competence, students must negotiate with their teacher, providing sufficient time for additional assessment opportunities to be completed, prior to NESA entries.

3.4. **Hospitality Practical Tasks**

In cases of student absence from practical assessment or need for reassessment involving food items, if not feasible to reassess in an alternate class practical task students will be required to supply their own ingredients for reassessment. Assessment in all outcomes covered to date in class to be completed by end of each term.

3.5. **Work Placement**

3.5.1. Work placement is compulsory for all students in all VET subjects to achieve mandatory course requirements. Students are required to notify all of their class teachers when they will be attending Work Placement so that an alternate date for assessments can be set (if necessary).

3.5.2. Should Work Placement be set during a time when students are required to submit an assessment task or sit an examination, they must complete an Illness/Misadventure Form requesting a new date for the task.

Section 4: Non-Assessment Tasks

4.1. Non-assessment tasks, as set by the classroom teacher, need to be completed by the specified time. Students unable to complete the task by the specified date should ask the teacher for an extension at least two school days before the task is due. These tasks ensure that a student has adequately

studied a course, and this cannot be achieved through Assessment alone. Extensions will not automatically be granted and only one extension will be given if it is appropriate.

4.2. Non-assessable task should be completed on time because:

- 4.2.1. The teacher needs all the class work so that all tasks can be marked at the same time. This will ensure fair marking.
- 4.2.2. Your workload has been organised in such a way that you gain the maximum amount of benefit from tasks.
- 4.2.3. The teacher needs to know the areas of course work where you are having difficulty. Problem areas can be identified and remedied as soon as possible.
- 4.2.4. These tasks should be seen as being revision for examinations and assessment tasks.

4.3. **Failure To Complete Non-Assessment Tasks**

Failure to complete non-assessment tasks can result in any or all of the following:

- 4.3.1. The matter will be recorded by the teacher and reported to the Head Teacher and the Year Adviser;
- 4.3.2. An unsatisfactory comment may be made on the student's report;
- 4.3.3. A letter to parents or an interview with parents informing them of unsatisfactory progress;
- 4.3.4. Students may be detained to complete the task under the supervision of the teacher;
- 4.3.5. Students can be deemed as not having satisfied the course requirements and issue of the HSC in that subject could be in question.

4.4. **Concern Regarding Application in HSC Course**

A warning letter will be issued to a student if the Principal has sufficient evidence that the student has not:

- 4.4.1. **followed** the course developed or endorsed by the NESAs; and
- 4.4.2. **applied** themselves with diligence and sustained effort to the set tasks and experiences provided in the course by the school;
- 4.4.3. **achieved** the outcomes of each course to a degree acceptable by the school.

Section 5: Application for extended leave form - travel

Students need to complete this form signed by the Principal if they are away for an extended period (over 1 week) of time and it affects assessment tasks.

Section 6: Appeals Process

6. Appeals process:

6.1. Refer to the following flowchart for information on grounds for appeal, how to lodge an appeal and the appeals process.

6.2. The provision of the appeals process does not cover:

6.2.1. long term illness such as glandular fever, asthma and epilepsy unless there is a flare-up during the examination. (Chronic sickness is not in itself an acceptable basis for appeal)

6.2.2. matters that could have been avoided by the student. e.g.

6.2.2.1. forgetting to hand in a task

6.2.2.2. misreading a timetable

6.2.2.3. excursion or extra curricula event that prevents the student sitting the task on the set/due date - if HT or teacher not informed before hand

6.2.3. matters relating to the loss of time towards the end of tasks preparation period

6.2.4. alleged inadequacies of teaching

6.2.5. long term family situations

6.2.6. matters relating to failure to perform at usual standard in assessment tasks other than exams

6.2.7. computer failure or malfunction generally will not be grounds for appeal.

6.3. **Appeals Time-frame**

Misadventure/Illness appeals must be submitted:

6.3.1. prior to the due date for requests for extension of time

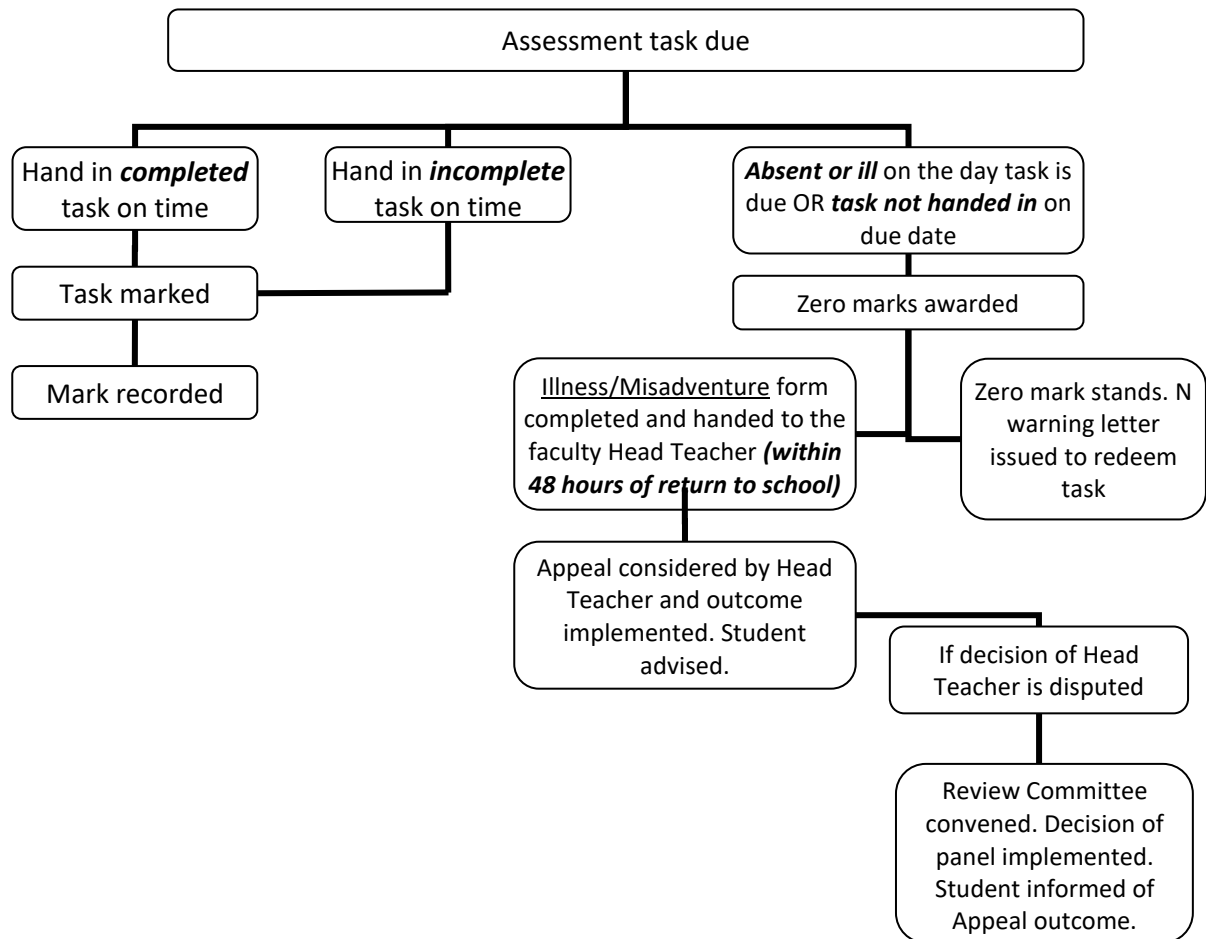

6.3.2. prior or on the due date for “failure to submit task” or “failure to sit for school set exam”

6.3.3. if appeal is based on illness, appeal must be presented within 48 hours of return to school.

6.4. Students are advised that appeals for late submission, misadventure or illness will be strengthened if they contact the school by phone, on or before the due date, and submit medical certificates if applicable.

Section 7: RoSA, Preliminary and HSC Assessment Flow Chart

If a student knows beforehand that they are going to be absent on the day that an assessment task is due, or is to be conducted, the student must notify their class teacher beforehand. Leave approval may need to be sought.

NOTE: There are no grounds for an appeal in regard to the mark awarded to a completed assessment task. If a candidate becomes ill during the course of an assessment and/or examination an Illness/Misadventure Appeal must be lodged as per policy.

Section 8: Appeals Process (VET Courses only)

Students have access to an appeals process if they feel in any way dissatisfied with the assessment process. Difficulties over assessment should be approached informally at first with a view to resolving them through discussion between student and assessor(s). If not resolved by discussion, between teacher and student, the teacher's direct supervisor will convene and mediate a further informal meeting.

However, if the informal approach fails to resolve the concerns, a formal appeals process should be initiated. Formal appeals need to be based on identified problems with the assessment process rather than an unsuccessful assessment result. The student lodges a formal appeal in writing to the Principal clearly stating their grounds for appeal (see the Principal).

The school must record all appeal submissions. At the request of the school an appeals panel is convened to review the assessment process and to decide whether or not there are justifiable grounds for appeal. The panel may call for the student and the assessor to present their views in person before reaching a decision.

The panel will comprise of a qualified VET teacher from another school a RTO representative and a community representative.

If the student's appeal is upheld, the RTO arranges a re-assessment process with the student. The student should have the right to request that different assessor(s) be involved in the alternative assessment to avoid any fears of recrimination.

If the appeal is rejected, the student has the right to lodge a further appeal with Maitland Office. When this next course of action is taken, all assessment records and details of the appeal process need to be made available to the training authority to assist their deliberations.

Section 9: Assessment and Examination Rules for Senior Students

- 9.1. As senior examinations are an important component of the final assessment mark, the importance of adhering to the examination rules cannot be stressed too highly. These rules are:
 - 9.1.1. No student will leave the school grounds during the period of examination unless prior arrangements have been made with the Year Co-ordinator. At the completion of the examination students may leave the school grounds.
 - 9.1.2. Only authorised equipment or material shall be used by students during examinations or assessment tasks. The subject department responsible for the paper/task will specify authorised equipment etc.
 - 9.1.3. No borrowing of equipment will be permitted during the examination.
 - 9.1.4. Writing paper is issued by the school. No other paper is to be in a student's possession.
 - 9.1.5. Students' bags, folders etc. are to be left outside in area designated by exam supervisor.
 - 9.1.6. It is each student's responsibility to ensure:
 - 9.1.6.1. That your name or examination number is placed on each page.
 - 9.1.6.2. that all pages are handed in at the conclusion of the examination. Any work inadvertently taken from the room will not be accepted for marking.
 - 9.1.6.3. that all pages handed in are securely fastened together.
 - 9.1.7. Leaving the examination room early is not permitted.
 - 9.1.8. Late arrivals will be treated in the same manner as in the HSC. That is, generally no additional time will be allowed except in major emergencies affecting a number of candidates, e.g. floods, transport strikes, etc.

- 9.2. Malpractice occurs if a student is in possession of unauthorised information during a test, examination or assessment task. Malpractice can result in the award of zero for the examination or task. Students should note that the following factors are not relevant in instances of malpractice:
- 9.2.1. the quantity or quality of the information
 - 9.2.2. the motives or intent of the student
 - 9.2.3. establishing that the information was used by the student
 - 9.2.4. It is therefore extremely important that all students should check to see that they have not inadvertently taken information into the examination room eg. notes used for study. Such notes would constitute malpractice unless given to the supervisor before the examination commences.
- 9.3. Students will sit in places determined by the supervisor.
- 9.4. Students **are to wear school uniform**.
- 9.5. **No eating** of foodstuffs in the examination room. An exception may be made for medicinal substances, such as throat lozenges, but permission must be obtained from the examination supervisors. Bottles of water are permitted.
- 9.6. Students will remain seated at the end of the examination until all examination material is collected and then will leave the room under the directions of the supervisors.
- 9.7. Students will only be allowed to visit the toilet after obtaining permission from the supervisor and will be accompanied by a supervisor to the toilet area.
- 9.8. **No talking** is permitted in the examination room once the exam has commenced and until all papers are collected.
- 9.9. Students must NOT bring any of the following into the examination room:
- 9.9.1. Mobile phone or smartwatch
 - 9.9.2. Any electronic device (except a calculator where permitted). This includes communication devices, organisers, tablets (eg iPads, etc), music players or electronic dictionaries
 - 9.9.3. Paper or any printed or written material (including your examination timetable)
 - 9.9.4. Dictionaries, except where permitted in Languages examinations
 - 9.9.5. Correction fluid or correction tape
- 9.10. Students who become sick during the course of the examination and are unable to continue are to notify the supervisor and then report to the front office. Students who leave the exam room sick cannot re-enter and recommence this exam.

Section 10: Glossary of Key Words

Syllabus outcomes, objectives, performance bands and examination questions have key words that state what students are expected to be able to do.

A glossary of key words has been developed to help provide a common language and consistent meaning in the Higher School Certificate documents.

Using the glossary will help you understand what is expected in responses to examinations and assessment tasks.

Account	Account for: state reasons for, report on. Give an account of : narrate a series of events or transactions
Analyse	Identify components and the relationship between them; draw out and relate implications

Apply	Use, utilise, employ in a particular situation
Appreciate	Make a judgement about the value of
Assess	Make a judgement of value, quality, outcomes, results or size
Calculate	Ascertain/determine from given facts, figures or information
Clarify	Make clear or plain
Classify	Arrange or include in classes/categories
Compare	Show how things are similar or different
Construct	Make; build; put together items or arguments
Contrast	Show how things are different or opposite
Critically (analyse / evaluate)	Add a degree or level of accuracy depth, knowledge and understanding, logic, questioning, (analyse/reflection and quality to (analysis/evaluation)
Deduce	Draw conclusions
Define	State meaning and identify essential qualities
Demonstrate	Show by example
Describe	Provide characteristics and
Discuss	Identify issues and provide points for and/or against
Distinguish	Recognise or note/indicate as being distinct or different from; to note differences between
Evaluate	Make a judgement based on criteria; determine the value of
Examine	Inquire into
Explain	Relate cause and effect; make the relationships between things evident; provide why and/or how
Extract	Choose relevant and/or appropriate details
Extrapolate	Infer from what is known
Identify	Recognise and name
Interpret	Draw meaning from
Investigate	Plan, inquire into and draw conclusions about
Justify	Support an argument or conclusion
Outline	Sketch in general terms; indicate the main features of
Predict	Suggest what may happen based on available information
Propose	Put forward (for example a point of view, idea, argument, suggestion) for consideration or action
Recall	Present remembered ideas, facts or experiences
Recommend	Provide reasons in favour
Recount	Retell a series of events
Summarise	Express, concisely, the relevant details
Synthesise	Putting together various elements to make a whole

It is important to note that exam questions for the Higher School Certificate will also continue to use self-explanatory terms such as 'how', or 'why' or 'to what extent'. While key words have a purpose, they will not set limits on legitimate subject-based questions in exam papers.

Key Words and Levels of Response

Along with the mark value and space provided in exam booklets, the key words can help you to judge how much an answer needs to cover.

The table below provides a general guide to the kind of response required by each of the key words. The table is not intended to be prescriptive, and you will notice that some key words appear in more than one row.

Groupings of Syllabus knowledge, skills and understandings	Groupings of key words
Skills in analysis and critical thinking.	Analyse, distinguish, examine, explain, extract, investigate
Skills in application and performance	Demonstrate, discuss, apply, calculate, construct
Knowledge, recall and understanding	Define, describe, explain, give an account, identify, outline, recall, recount
Skills in evaluation	Appreciate, assess, discuss, evaluate, justify, predict, account for
Skills in problem solving	Apply, calculate, clarify, compare, contrast, construct, deduce, demonstrate, investigate, predict, propose, recommend
Skills in synthesis and creative thinking	Classify, extrapolate, interpret, summarise, synthesise

The left-hand column in the table is a grouping of the knowledge, skills and understanding typically found in Stage 6 syllabuses.

The key words from the glossary are grouped in the right-hand column alongside the groupings of knowledge, skills and understanding.

The terms in the right-hand column such as 'describe', 'identify' and 'outline' are typically used in questions requiring recall of knowledge. Questions using these terms generally require less depth and are worth fewer marks than questions using terms such as 'assess', 'evaluate' and 'justify' which call for higher-order thinking. The latter generally require an answer of greater depth and usually attract higher marks.

Other terms such as 'explain' and 'discuss' can vary considerably in the mark value and depth of response required.

Section 12: Procedure for Evaluating HSC Course Assessment Policies

In term 3 each year a current copy of the school's "HSC Course Assessment Policies" is seen by each member of the school executive for evaluation/ review, suggested changes and additions. The Deputy Principal collates the following year's document and checks that it contains all the information suggested by the NESA.

Parents or students with suggestions for future policy documents should discuss or give them in writing to a member of the school executive staff. Please note that this document is to be used in conjunction with NESA "Rules and Procedures for the HSC" that each candidate receives and signs for at the beginning of their HSC course.

Section 13: Teachers with Family Members and/or Close Friends in Stage 6 at Gilgandra High School

Wherever practical, teachers will avoid teaching or being involved in educational decisions involving family members or close friends. Where it is not practical to avoid such situations completely, another member of staff will make any significant decisions relating to the student's assessments and have those endorsed by a supervisor. The management processes and systems in these circumstances will be approved by the Principal prior to the commencement of the course and monitored through existing line management support.

Appendix 2: Official Warning Letter: Non-completion of HSC course

This will be printed on school letterhead

{Date}

Dear {Parent/Carer}

N Award Warning - Non Completion of a Higher School Certificate Course

This letter is to advise that your {SonAndDaughter}, {PrefName} {Surname}, is in danger of not meeting the Course Completion Criteria for the Higher School Certificate course in **Subject**.

The NSW Education Standards Authority (NESA) requires schools to issue students who are in danger of not meeting course requirements with official warnings in order to give them the opportunity to correct the problem. A minimum of two course-specific warnings must be issued prior to a final non-completion of course determination being made.

Please regard this as the {1st, 2nd} Official Warning that we have issued concerning {PrefName}'s participation in {Subject}.

A minimum of two course specific warnings must be issued prior to a final 'N' Determination being made for a course.

For a student to satisfactorily complete a course, NESA requires the principal to have sufficient evidence that the student has:

- a) Followed the course developed or endorsed by NESA; and
- b) Applied themselves with diligence and sustained effort to the set tasks and experiences provided in the Course by the School; and
- c) Achieved some or all of the outcomes.

Where it is determined that a student has not met the course completion requirements, they place themselves at risk of receiving a determination of non-completion of course requirements. This will mean that the course will not be listed on the student's Record of Achievement and may affect the student's eligibility for the Higher School Certificate. In Year 12, students must make a genuine attempt at assessment tasks that contribute in excess of 50% of the available marks. Completion of tasks worthy of exactly 50% is not sufficient; tasks worth in excess of 50% must be completed.

To date {PrefName} has not satisfactorily met the following Course Completion Criteria:
{IncidentNawardBoardReasons}

The following table lists those tasks, requirements or outcomes not yet completed or achieved, and/or for which a genuine attempt has not been made.

<i>Task Name/Course Requirement/Course Outcome</i>	<i>Date Task Initially Due (if applicable)</i>	<i>Action Required by student</i>	<i>Date to be completed by (if applicable)</i>

In order for {PrefName} to satisfy the Course Completion Criteria, the above tasks, requirements or outcomes will need to be satisfactorily completed or achieved.

Please discuss the matter with {PrefName} and contact the School if further information or clarification is needed.

Yours faithfully

****Units highlighted need to be assessed by an assessor that holds three years industry experience ie Cluster 3, 6 and 8. Please refer to the Public Schools NSW, Wagga Wagga RTO 90333 Assessment Strategy for details.**

You must satisfactorily meet all the requirements of the VET qualification as stated in the TAS to achieve the SIT20316 Certificate II in Hospitality. The Statement of Attainment towards SIT20316 Certificate II in Hospitality will only be the possible AQF outcome if at least one UoC has been achieved.

The assessment components in Hospitality Operations are competency based. This means that students need to demonstrate that they have gained and can apply the specific knowledge and skills for each unit of competence. In addition to Assessment Events, some assessment will occur in an informal setting in the classroom or during work placement. Competency assessment is graded as ‘not yet competent’, ‘developing’, ‘competent’. This means a course mark is not allocated.

Certificate II in Rural Operations

HSC Outcomes – A student:	
EN12-1	Independently responds to and composes complex texts for understanding, interpretation, critical analysis, imaginative expression and pleasure
EN12-2	Uses, evaluates and justifies processes, skills and knowledge required to effectively respond to and compose texts in different modes, media and technologies
EN12-3	Analyses and uses language forms, features and structures of texts and justifies their appropriateness for purpose, audience and context and explains effects of meaning
EN12-4	Adapts and applies knowledge, skills and understanding of language concepts and literary devices into new and different contexts
EN12-5	Thinks imaginatively, creatively, interpretively, analytically and discerningly to respond to and compose texts that include considered and detailed information, ideas and arguments
EN12-6	Investigates and explains the relationships between texts
EN12-7	Explains and evaluates the diverse ways texts can represent personal and public worlds
EN12-8	Explains and assesses cultural assumptions in texts and their effects on meaning
EN12-9	Reflects on, assesses and monitors own learning and refines individual and collaborative processes as an independent learner

HSC Outcomes – A student:	
ES12-1	comprehends and responds analytically and imaginatively to a range of texts, including short and extended texts, literary texts and texts from academic, community, workplace and social contexts for a variety of purposes
ES12-2	identifies, uses and assesses strategies to comprehend increasingly complex and sustained written, spoken, visual, multimodal and digital texts that have been composed for different purposes and contexts
ES12-3	accesses, comprehends and uses information to communicate in a variety of ways
ES12-4	composes proficient texts in different forms
ES12-5	develops knowledge, understanding and appreciation of how language is used, identifying and explaining specific language forms and features in texts that convey meaning to different audiences
ES12-6	uses appropriate strategies to compose texts for different modes, media, audiences, contexts and purposes
ES12-7	represents own ideas in critical, interpretive and imaginative texts
ES12-8	understands and explains the relationships between texts
ES12-9	identifies and explores ideas, values, points of view and attitudes expressed in texts, and explains ways in which texts may influence, engage and persuade different audiences
ES12-10	monitors and reflects on own learning and adjusts individual and collaborative processes to develop as a more independent learner

Total	30	20	20	30	100

HSC Outcomes – A student:	
MS2-12-1	uses detailed algebraic and graphical techniques to critically evaluate and construct arguments in a range of familiar and unfamiliar contexts
MS2-12-2	analyses representations of data in order to make inferences, predictions and draw conclusions
MS2-12-3	interprets the results of measurements and calculations and makes judgements about their reasonableness, including the degree of accuracy and the conversion of units where appropriate
MS2-12-4	analyses two-dimensional and three-dimensional models to solve practical problems
MS2-12-5	makes informed decisions about financial situations, including annuities and loan repayments
MS2-12-6	solves problems by representing the relationships between changing quantities in algebraic and graphical forms
MS2-12-7	solves problems requiring statistical processes, including the use of the normal distribution and the correlation of bivariate data
MS2-12-8	solves problems using networks to model decision-making in practical problems
MS2-12-9	chooses and uses appropriate technology effectively in a range of contexts, and applies critical thinking to recognise appropriate times and methods for such use
MS2-12-10	uses mathematical argument and reasoning to evaluate conclusions, communicating a position clearly to others and justifying a response

HSC Course Outcomes – A student:	
H1	describes the nature and justifies the choice of Australia's health priorities
H2	analyses and explains the health status of Australians in terms of current trends and groups most at risk
H3	analyses the determinants of health and health inequities
H4	argues the case for health promotion based on the Ottawa Charter
H5	explains the different roles and responsibilities of individuals, communities and governments in addressing Australia's health priorities
H6	demonstrates a range of personal health skills that enables them to promote and maintain health (Option 1)
H7	explains the relationship between physiology and movement potential
H8	explains how a variety of training approaches and other interventions enhance performance and safety in physical activity
H9	explains how movement skill is acquired and appraised
H10	designs and implements training plans to improve performance
H11	designs psychological strategies and nutritional plans in response to individual performance needs
H12	analyses the influence of sociocultural factors on the way people participate in and value physical activity and sport (Option 2)
H13	selects and applies strategies for the management of injuries and the promotion of safety in sport and physical activity (Option 3)
H14	argues the benefits of health-promoting actions and choices that promote social justice
H15	critically analyses key issues affecting the health of Australians and proposes ways of working towards better health for all
H16	devises methods of gathering, interpreting and communicating information about health and physical activity concepts
H17	selects appropriate options and formulates strategies based on a critical analysis of the factors that affect performance and safe participation
